_01

Who we are

The company

STE Engipharm is a PHARMACEUTICAL ENGINEERING company which integrates a highly experienced team of professionals in the sector.

Our long trajectory of more than 40 years of experience in the pharmaceutical sector is sufficient to allow us to develop projects with the best approach, under high level quality requirements.

STE ENGI PHARM IS A COMPANY OF STE GROUP.

STE Group is a strongly consolidated company, whose strategy is focused on offering technological solutions in the engineering area and project execution.

Our history

Juan Jané Mateu
Founder STE Group

Juan Jané, as the founder of the STE Group, forged his professional career in the health and pharmaceutical sector.

STE Group is currently managed by Xavier Aguilar, whose vocation is based on the same values and principles of decision-making and culture of collaboration always present during the group's long trajectory.

Xavier Aguilar
CEO STE Group

What we do

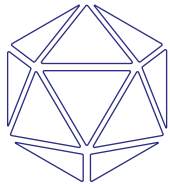

In STE Engipharm:

1. WE DESIGN
2. WE MANUFACTURE
3. WE INSTALL
4. WE VALIDATE

Our wide range of products and services allows us to comply with our customers' needs.

Our projects range goes from the management of the engineering design to the execution of the overall installation, including maintenance and after-sales services.

Customized solutions according to international standards.

OWN PRODUCTION
SITE FOR
CLEAN ROOM
PRODUCTS AND
ACCESSORIES

1. ENGINEERING:

- Engineering
- Own manufacturing facilities for clean room design
- Execution projects
- Related services

2. EXECUTION PROJECTS:

- Turn-key projects
- Clean room architecture (own manufacturing facilities)
- HVAC
- Critical installations
- Commissioning and qualification

3. ADDITIONAL SERVICES:

- Compliance assistance with local department
- Construction management
- Training, audits and consultancy
- Documentation
- Maintenance contracts
- After-sales services

4. OWN PRODUCTION SITE FOR CLEAN ROOM DESIGN:

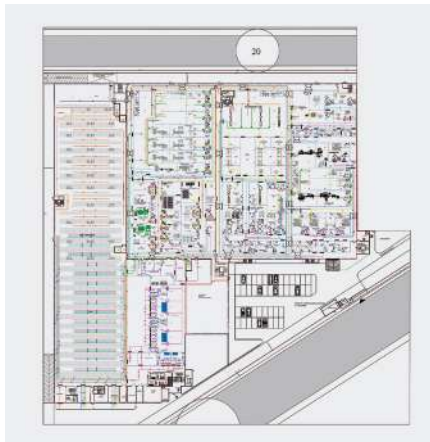

- Modular panels
- Swing doors, rolling doors, sliding doors
- Aluminium profiles
- SAS benches
- Pass-box
- Accessories

Engineering Service step by step for all stages of a Project

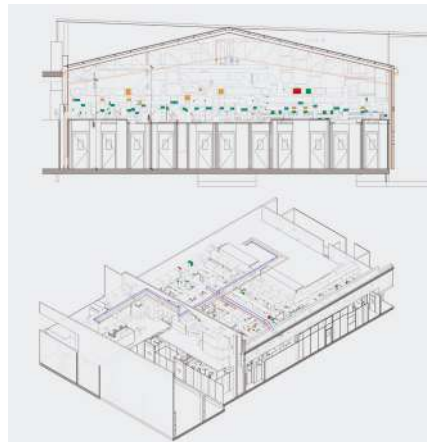

CONCEPTUAL DESIGN

Preliminary aspects, compliance and concepts of the project

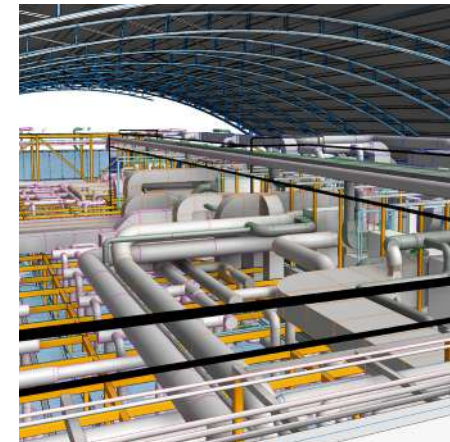

BASIC ENGINEERING

Development of the building and facilities concept

DETAILED ENGINEERING

Detail design facilities for construction

Own assembly team

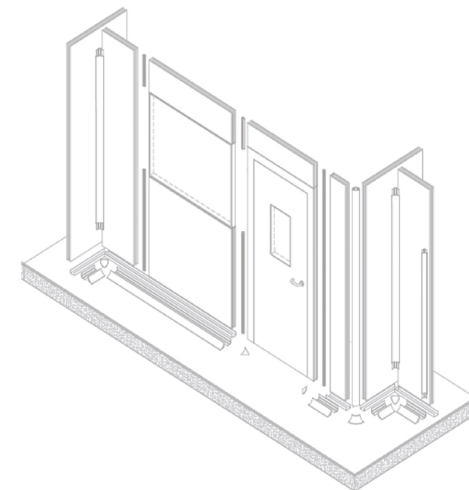

We guarantee success during each phase of execution, facilitating the overall management of the project by ensuring planning monitoring and cost control.

Clean room architecture

- 01 . Own manufacturing of products
- 02 . Modular systems
- 03 . Panels
- 04 . LED Luminaires
- 05 . Different types of doors, more than 20 models
- 06 . Double glazed view panels and windows
- 07 . Protections

Complete solutions

- 01 . Contract management
- 02 . Construction management
- 03 . Compliance assistance
- 04 . Audits and consulting
- 05 . Training
- 06 . Documentation
- 07 . Maintenance
- 08 . After-sales services
- 09 . Production support
- 10 . Turnkey project
